

# Matias Farias

Full Stack Developer

## SUMMARY

Full stack developer, passionate about front-end technologies. I recently graduated from a Full-stack developer boot camp focused on the following technologies: Javascript, React Js, Express, Node Js, HTML5 and CSS3.

I have experience in problem-solving and I work efficiently as a part of a team. I'm always interested in learning and sharing knowledge with team members. I'm highly communicative, and have proven leadership skills and initiative to take on responsibilities.

## SKILLS

- Full Stack technologies
- RESTful services/ API
- Testing/ Debugging
- Custom databases
- Design knowledge (User Interface/User Experience)
- SCRUM
- Critical Thinking and strong communication skills

## WORK SUMMARY

### FULL-STACK DEVELOPER

#### ALC-Media (startUp) 2023-present

- Web page development for various clients using different tools, programming languages, and CMS. JavaScript, HTML5, CSS3, PHP (WordPress, Drupal, Hubspot)
- General consulting for these projects, performing migrations, all types of optimization improvements, with a bit of a focus on marketing (Google Ads)

### LEADER & FULL-STACK DEVELOPER (ACADEMIC PROJECT)

#### SoyHenry full-stack web developer bootcamp (2022)

- Led an 8-person team using SCRUM methodology to design, build and create a single page application (SPA) to publish and sell books online
- The front-end was built using React JS and Redux was used as a state manager. Also, styled components with Chakra UI. Created an API, using Node JS and Express JS to perform application's actions.. Database management with Sequelize

### FRONT-END DEVELOPER

#### MilkCrate (09/21-03/22)

- I contributed to the development of a social app for retired people, playing a key role in the implementation of the app's map feature using Google Maps API.
- Kept close collaboration and interaction with the QA team, actively participating in the bug tracking and resolution process in both web and mobile applications.
- I was part of design decisions on the web-app, re-styling the navbar, making it more user-friendly

### SAP CONSULTANT & FRONT-END DEVELOPER

#### Indra SA (2019-2021)

- The first year and a half I worked as an MM/FI SAP consultant, as part of a maintenance team on client site. Responsible for constantly communicating with users to understand issues and ensure their needs were solved.
- Later on, I joined a different project, being part of their front-end developing team, where I was involved in troubleshooting and improving their web application, proactively identifying and resolving bugs. I also focused on improving their current user experience in form registrations and validations.

## ACADEMIC BACKGROUND

### FULL-STACK WEB DEVELOPER

#### SoyHenry (2022)

- 800 hours course
- Specialized in React JS and Node JS
- Core project was an e-commerce where I coordinated a team of 8 people to deliver using agile methodologies

### CHEMICAL TECHNICIAN

#### Instituto industrial Luis A Huergo

- Oriented to Bromatology and Industrial Analysis.
- I worked in the Chemical Industry for 8 years before switching to IT
